February 19, 2009

Dear Sir or Madam,

The City of Longmont found itself in need of an independent expert to evaluate RF Emissions Compliance Reports for a proposed co-location of a MediaFLO USA antenna on an existing AM radio tower. A last minute decision to present the project and the RF study findings to the Planning and Zoning Commission required that the City find an independent third party to undertake the evaluation with little lead time and a very short deadline.

The City hired Jonathan Kramer a Principal Attorney with the Kramer Telecom Lawfirm LLC to evaluate the RF Emissions Compliance reports provided to the City and to provide a technical assessment and legal opinion about the proposed project.

During his evaluation, Jonathan Kramer discovered that one of the reports included results modeled off of the wrong antenna. After Mr. Kramer received a corrected report, he managed to provide a comprehensive report which included a legal framework from which the Planning and Zoning Commission could base a decision on. In addition, Mr. Kramer included conditions for approval and on-going operations for the project that were subsequently adopted by the Planning and Zoning Commission.

In the end, the Planning and Zoning Commission was satisfied that the project was safe to the surrounding community and the project was approved.

Mr. Kramer provided outstanding service to the City of Longmont and as the planner assigned to the MediaFLO USA co-location project, I would be happy to recommend his services.

Sincerely

A handwritten signature in black ink that reads "Ben Ortiz". The signature is written in a cursive style with a long horizontal stroke at the end of the name.

Ben Ortiz
