Dear Jonathan,

Thank you so much for taking the time to give the program on telecommunication basics for the Section Education Institute last January. Your presentation on telecommunication law was insightful. The attorneys who attended this program will be a step ahead in being able to determine the important aspects of this area of the law in their practice. The State Bar could not offer such exceptional programs without the generous donation of time and talent from individuals like you.

I am very pleased you have joined the Executive Committee of the Public Law Section. I know that you will be an invaluable member of the committee.

You have my deepest respect.

Sincerely,

Jacqueline Carey-Wilson
Executive Committee Member
Public Law Section of the State Bar
